RULES, REGULATIONS AND CONDITIONS

In addition to the Explanation of Terms and Abbreviations in F.E.R.C. No. 5.3.0 and successive issues thereof, the following definitions and abbreviations apply.

Terms and Abbreviations	Explanation
Petroleum Products	As used herein, refers to Gasoline, Commercial Jet Fuel, and Petroleum Oil Distill conforming to standards of applicable governmental authority at scheduled destination current ASTM Standard Specification, and requirements established by Carrier.

The following items are exceptions to the same item numbers in F.E.R.C. No. 5.3.0 and successive issues thereof and apply to this tariff.

Rule 1 Specifications and Restrictions

Petroleum Products will be accepted for transportation at such time as Petroleum Products of same quality and specification as are currently being transported from receiving point to destination. Prior to acceptance of Petroleum Products for transportation the Carrier may require from Shipper a certificate setting forth, in detail, the specifications of each shipment of Petroleum Products. Carrier reserves the right to reject any Petroleum Product with characteristics such that it will not be readily susceptible for transportation through Carriers existing facilities, or which will materially affect or damage the quality of other shipments or cause disadvantage to other Shippers and/or the Carrier.

Lubricity agents as required by ASTM standard D-975 (revised effective January 1, 2005) for Diesel #1 and Diesel #2 are strictly prohibited due to possible contamination of other Petroleum Products batched in this system.

Petroleum Products will be required to meet Tesoro Logistics Northwest Pipeline LLC, Products Specifications, dated July 1, 2013.

Rule 30 Minimum Delivery at Destination

- a) The minimum volume of an intermediate Delivery shall be not less than twenty-five hundred (2,500) Barrels. If the minimum volume of five-thousand (5,000) Barrels is tendered by a Shipper, no intermediate Deliveries will be made.
- b) The minimum volume of a Delivery at the last destination shall be not less than five-thousand (5,000) Barrels.
